Surviving Cardiac Arrest Conference & National Lifesaver Defibrillator Awards

Royal College of Physicians

Saturday October 24th 2009

'After cardiac arrest, the chance of survival diminishes rapidly if attempted defibrillation is delayed. Wide availability of automated external defibrillators (AEDs) reduces the time to defibrillation and increases survival.'

Dr Jerry Nolan, Chairman of the Resuscitation Council (UK)

Sponsored by

Sponsored by

The Royal College of Physicians

The Royal College of Physicians is the oldest and most prestigious English medical foundation, incorporated by Royal Charter in 1518. Since then, for nearly 500 years, the College has promoted the highest standards of medical practice. The College has exceptional conference and banqueting facilities. An open display of treasures and artefacts make the college a truly unique venue.

Honoured Guest

Presenting the lifesavers with their awards is world-renowned cardiologist **Professor Douglas Chamberlain CBE**.

Professor Douglas Chamberlain CBE, Consultant Cardiologist, is currently an Honorary Professor of Resuscitation Medicine at Brighton University and Honorary Medical Adviser to the South East Coast Ambulance Service. Professor Douglas Chamberlain has been a leading international light in the world of cardiac emergencies and resuscitation for the past 40 years, having introduced paramedic care to the UK in the 1970s.

Conference & Exhibition

- Cardiac arrest survivors speak of their experiences
- Learn more about the Heartstart initiative and CPR
- The London Ambulance Service gives their perspective
- An update on defibrillators in public places and schools
- Debating the public using Automated External Defibrillators (AEDs)
- Surviving cardiac arrest provides the opportunity to identify a cardiac condition which may be genetic
- A consultant cardiologist speaks about evaluating family members and a family speaks of living with the Long QT Syndrome
- HSE (Health and Safety Executive) new requirements from October

Awards Dinner

- The speedy use of a defibrillator along with CPR can save a life
- SADS UK is holding an awards dinner at the Royal College of Physicians to award those who have taken lifesaving action

| TIME | CONFERENCE AGENDA | SPEAKER |
|---|---|---|
| 10.30 | Registration and start of Exhibition - <i>Coffee</i> | |
| | Defib demo | |
| | SADS UK annual lifesaver awards and AED donations to schools. ILCOR – The Warning Signs. | Anne Jolly, Founder of SADS UK |
| | Surviving cardiac arrest – supporting EDM 395 cardiac arrest in schools | Paul Keetch MP |
| | Cardiac arrest survivor | Terry Blake |
| | Inherited Cardiac Conditions – the importance of families knowing | Dr. Pier Lambiase, Heart Hospital |
| | <i>Lunch Break/defib demo</i> | |
| | Inherited cardiac conditions – a family perspective | Martyn Quigley-Phipps |
| | Heartstart initiative | British Heart Foundation |
| | London Ambulance Service perspective | Mark Whitbread, Clinical Practice Manager, London Ambulance Service |
| | The need for AEDs in the community | Phil Abbiss, Community Resuscitation Development Officer |
| | HSE changes for first aid at work | David Arnold, Association of First Aiders (AoFA)  |
| | Paediatric Resuscitation | TBA |
| | Vacate Council Chamber – 5pm – 6pm | |
| | <i>Refreshment break & Exhibition</i> | |
| | Keynote speech – Linacre Room | Professor Douglas Chamberlain CBE |
| 18.00 | Exhibition closes | |
| We are grateful to the Association of First Aiders for publicising the conference | | |
| TIME | AWARDS DINNER | |
| 18.00 | <i>Return to Council Chamber for Dinner & National Lifesaver Defibrillator Awards</i> | |
| | Presentations of certificates to Lifesavers | Professor Douglas Chamberlain CBE/Mark Whitbread |
| | Donation of AED by Physio Control | Anne Jolly/Julie Phillips |

SADS UK

SADS UK works to prevent premature loss of life. The charity raises awareness about cardiac conditions and ‘The Warning Signs’ that may indicate a person has a cardiac abnormality and needs treatment. The charity provides cardiac equipment to improve monitoring facilities both in acute hospitals and the community.

The first sign of a cardiac condition may be when a person suffers a cardiac arrest. To help safeguard against sudden death SADS UK donates Automated External Defibrillators (AEDs) to organisations such as:

Schools

Workplaces

Sports Clubs

Leisure Centres

Sports complexes

Shopping centres
